

# MONESTHETICA

## Empowering skin transformation

Monesthetica was born from a desire to empower true skin transformation in the hands of aesthetic professionals.

We exclusively partner with specialty brands from around the world to curate a unique, high-performing portfolio of clinically proven, professional led brands that will transform the look and feel of skin.

## Our commitment to you

Our mission is to match your talent and proficiency with the latest innovation, technology and advancements in the global aesthetic market space, underpinned by exceptional service and support.

Years of industry experience and professional knowledge has taught us one thing – when you combine market-leading technology with the skilled hands of experienced aesthetic professionals, magic happens!

### INNOVATION

We continuously seek out new technologies, devices and breakthrough ingredients capable of visibly transforming skin, keeping you at the forefront of aesthetic science and innovation.

### SERVICE

Our boutique-style of service is centred around you, the aesthetic professional. You are at the heart of everything we do, and we strive to support you how you want to be supported.

### COLLABORATION

We work in close partnership with our aesthetic professionals towards achieving shared goals. We pursue connection and every interaction is met with transparency and accountability.

# Clinically proven, professional led brands

## PRÉME AESTHETICS

Prème creates advanced science-based skincare products using the latest innovation to deliver unmatched purity, unrivalled potency, unparalleled results.

Pure Technology™ is the foundation of Prème's regenerative range, featuring the latest cutting-edge regenerative actives, in their purest form.

Prème offers a complete range of regenerative solutions based on clinically proven ingredients from best-in-class sources, including Pure Exosomes from human umbilical cord blood - the youngest, purest, and most potent source; PDRN from salmon DNA to support regeneration and repair; and plant-based Bio-Exosomes for a powerful vegan alternative in regenerative aesthetics.

## MY SKIN CHEMISTRY

My Skin Chemistry is a scientifically developed cosmeceutical skincare range powered by patented HYLACALM™ Technology.

HYLACALM™ elevates professional skincare, enhancing hyaluronic acid's natural hydrating benefits and has been scientifically proven to reduce signs of inflammation by 94% and boost cell vitality by over 20%.

My Skin Chemistry combines HYLACALM™ with clinical strength active ingredients to target specific concerns and visibly improve skin health and resilience.

## LYCOGEL

Lycogel is the first breathable post-procedure colour cosmeceutical brand that combines coverage and skincare technology, specifically designed to deliver oxygen, hydration, and nutrition to the skin.

Originally created for the medical aesthetics field, the range boasts a revolutionary combination of active ingredients that form the LYCO Complex, delivered in an oxygen permeable Designer Gel Base. This unique matrix acts as a breathable second skin to optimally support healing, reduce downtime, and provide long lasting coverage following aesthetic procedures.

## PROCEANIS

Crafted in Germany in collaboration with molecular biologists, Proceanis is a range of supplement drinks designed to complement and support aesthetic skin treatments internally.

Hyaluron Drink is the first vegan hyaluronic acid drink, clinically proven to increase skin hydration by almost 70% and skin firmness by 13%. Collagen Drink is the first marine collagen peptide supplement 100% from wild Norwegian cod fish skin, containing the most complete amino acid profile.

The synergistic combination of Hyaluron and Collagen drinks became the first day and night nutricosmetic concept.
